These was no excitement whatever Those who stopped to read the sign chatted quietly about the prospects and all seemed confident of an ultimate set-

thement in full.

At the National Bank of Commerce there was a long line at the window of the paying teller within a minute of the time the doors were unlocked at 10 o'clock. A great rack of gold coin was at the teller's hand and for thirty minutes he passed out the money as fast as checks were presented. By that time the number of waiting depositors had increased to nearly 100 and the officers decided to take time by the forelises and save what actual cash was still on hand. Therefore at 10.20 a notice was hung at each of the doors reading as follows. This bank is closed. By order of the board of directors.

Those inside quietly filed out with scarcedy a trace of directors was clear of any crowld, though many paused to read the notice.

Darmorr, Mich., July 18.—Of course the big merchants and manufacturers' stake was the attraction at the driving park, and about 7,000 people journeyed thither to see it decided.

At the opening of the betting Fides Stanton, the great Canad an stallion, was the favorite at 1400, with Silver Star at \$225; Siva, \$250; Miss Jida, \$150; Mambritonian, \$60; Pittabe of Wilken, \$30; Konline, \$30; Chimes Garl, \$30 and the field \$40.

Just before the first heat there was a disposition to make Silver Star a favor-ite. Chimes Girl lamed herself while exercising and was withdrawn. The first heat was taken by Siva with no trouble whatever. In the second heat Siva led as far as the three-quarters, where she broke badly, and Silver Star, who was coming very fast, shot into the lead. Siva quickly caught her guit, lead. Siva quickly caught her gait, however, and coming into the stretch outfooted Silver Star, winning by a length. Fidee Stanton was a poor third. The next heat was simply a procession as far as first was concerned. There was a struggle between Mambritonian and Pearl McGregor for second, and the former was victorious. Siva, by making the time in faster than 2:14, gets the \$500 offered by the club for the feat.

RAVAGES OF CATARRH

Catarrh Attacks All Muces Membranes-It Affects the Ears Eyes, Nose, Throat, Bronshiel Tubes, Lungs, Stomach, Bowels, Kidneys, Bladder—The Whole Mucues Tract-The Many Ille that Are Due to It's Far-Reaching Influence.

Many people labor under the mistakes idea that colarrh means simply a discharge from the nestrils, with a hawking and episting of mucus; but to the observing physics, who makes a specialty of the dissess, the word estarrh means much more. Experience has tought him that caturth is by no means confined to the head alone, but that the entire system is frequently affected by it. Thus we have—

Catarrh of the ness, causing frontal heads ches (more commonly known as nouralgis,) a sense of duliness or drowsiness, distriness, confusion of thoughts etc.

Catarrh of the throat, bronchisi tubes and lungs, causing core throat, coung, houseness, or entire loss of unice, bronchists, asthma, pneumonia, etc.

Catarrh of the stomach (more commonly called dyspepsia,) causing indigestion, heartburn, water brash, nauses, felid breath, polyhtation or fluttering of the heart, shortness of breath, etc.

Catarrh of the bladder, with its long list of symptoms, the in flammatory condition extending up the ureters to the hindneys, causing distretes, Bright's disease, etc.

Catarrh of the bowels, causing alternate distribute, and constipation, dilm, etc. In fact, catarrh affects more or less all the mucus surfaces of the eatire body, causing at times severe local neuralgic or rhoumatic pains. So when Drs. Copeland and Graham are asked (as they often are by patients) whether they treat other diseases as well as extarrh,

the answer, yes. They Treat All Chronic Diseases. Because experience has taught them that nearly every chronic disease in this elimate is due to a general catarrhal condition of the system, and in treating this condition they

This method of treatment is peculiarly adapted to this class of allments os the entire mices tract of the body; as it is both local and internal; and each year's experience and successful treatment only confirms their claim that this is the only true and rational mode of treatment. In this they are borne out by hundreds of testimonials from grateful patients. REMEMBER IT COSTS YOU NOTHING FOR CONSULTATION AND

CATARRH CAN BE CURED

Mr. Wagner of 167 Shawmus arenue, who is one of the best known millers of this city, came to Drs. Copeland and Geshum to see it catarrh was a cumble disease, as all his experience had been to the containy. In regard to the improvent in his case he said:
